---

EPA continues to oversee Lard Oil Company on oil spill in Denham Springs. Assessments of homes continue. Metrics are being developed to track activities.

EPA continues to coordinate with LDEQ for potential oil/hazmat responses related to flooding. The EPA has 2 Response Teams available for spill assessment activities.

LDEQ continues flood response operations. The activities planned or continue include landfill assessments, facility damage assessments (phone), WWTP assessments (phone), and planning for debris site assessments. Ground assessments expected to begin on 8/23/16 for those facilities and WWTPs where phone contacts were unsuccessful.

OSC Brescia departing from JFO 8/22/16 and will be replaced by OSC McAteer. OSC Moore will assist OSC McAteer in transition.
